

## Amit Chakrabarty, MD, MS, FRCS, FICS

Dr. Amit Chakrabarty is a board-certified urologist Chairman of Poplar Bluff Urology, Missouri ([www.poplarbluffurology.com](http://www.poplarbluffurology.com)). He has been practicing adult and pediatric urology for more than 30 years in India, UK and since 1990, in the USA. He also holds professional responsibilities as Director of Center for Continence and Female Pelvic Health and is the Primary investigator at Longwood research.

Dr. Chakrabarty completed his medical degree as a best medical graduate with honors from [MKCG Medical College](#) in Berhampur, India in 1980, and his Master of Surgery degree from [Post Graduate Institute of Medical Education and Research, Chandigarh, India](#). He did a fellowship in Surgery at the [Royal College of Surgeons in Edinburgh](#) in 1987. He completed his residency in Urology and fellowship in Uro-Oncology (Research) at [Wayne State University](#) in Detroit, Michigan in 1995.

Dr. Chakrabarty is a Fellow of the Royal College of Surgeons of Edinburgh, Scotland and the International College of Surgeons. He is an active member of the American Urological Association ([www.auanet.org](http://www.auanet.org)), in addition to various memberships of societies related to his specialty.

Though his practice encompasses all branches of Urology, his main areas of interest is in the field of female urology including urinary incontinence and pelvic floor prolapse, minimally invasive therapies for Benign Prostatic Hyperplasia (BPH), male hypogonadism and erectile dysfunction.

He has several publications, presentations, and posters, mostly in the field of male and female urinary incontinence and pelvic floor prolapse, BPH and hypogonadism at national and international meetings and journals. He is a national and international surgical proctor for male and female urinary incontinence and pelvic floor prolapse, greenlight laser therapy for BPH and Interstim therapy. He is an invited speaker for urology topics of interest for CME and non-CME forums. Dr. Chakrabarty was an adjunct faculty for University of Alabama, Huntsville Campus, and offers urology rotation for family practice residency training. He is presently an adjunct faculty for Kansas City University & Arkansas College of Osteopathic Medicine.

He is a primary investigator for Longwood Research and his present research interests include treatment for urinary incontinence and pelvic floor prolapse. He has been Phase 4 studies involving Botox in overactive bladder, two FDA mandated 522 study on mesh in pelvic floor repair and one such 522 study on single incision sling. He was the one of the primary investigators in the phase 3 study that recently approved the newest overactive bladder medication, Vibregon.. He is currently enrolling patients for phase 3 study of the same drug in men with overactive bladder.

Dr. Chakrabarty's recent accomplishments include delivering a State-of-the-Art Lecture at the joint session of the Urological Society of India – American Urological Association in January 2019 and being a Chief Faculty at the First Pelvic Floor Surgical Workshop in PGIMER, India in March 2019. Over the last year during the Covid pandemic, he has conducted and participated in several international webinars.

In his personal life Dr. Chakrabarty is married to his wife for 31 years and has three daughters. Time permitting, he enjoys outdoor cooking, performing musical shows, watching football and Cricket and playing golf.
